|---|--|
| Course coordinator | Name: <u>Silviu Ursu, Assoc. Prof.</u> |
| | Office: C802 |
| | Email: silviu.ursu@uaic.ro |
| Semester in which course is available | 1 |
| Number of ECTS credits | 5 |
| Level of study | Master (Graduate) |
| Short description/ Contents | The course aims to develop an understanding of the theory and techniques relevant for corporate valuation together with a good sense of how to apply it a practical setting. Students apply research methods from finance, accounting and business in an integrated manner and interpret, analyse and synthesize potentially conflicting information from different sources to value a company. Students become familiar with the best practices in corporate valuation in order to prepare them for a job as company analyst, financial analyst, corporate finance advisor, or private banker. After passing the course, the student is able to value a company using the best practices in the corporate finance practice, and to evaluate these best practices. On completion of the course, the students will be able to: Value a company using the best practices in corporate valuation Explain and motivate the best practices in corporate valuation Identify key issues in a valuation |
| Assessment | The final grade of the course is a weighted average of the grades for coursework (50%) and final exam (50%). |
